RIVAN

WORLD WIDE QUALITY

The initial idea of the Rivan brand name

HARDY AND GENEROUS

Rivan is one of the active brands in the tile and ceramic industry of Iran. This brand, by using modern production methods and using advanced industries and relying on the knowledge of young, creative and bold specialists, successfully designs and produces porcelain ceramics in all dimensions.(60*60)-(60*120)-(100*100)- (120*120)-(80*160)-(120*260)-(120*280
Rivan is proud to have used the most up-to-date first-class effects in its domestic and export productions.
The most important approach of Rivan is to produce tiles and ceramics with the highest quality in the most special and unique form so that it can add beauty to the surrounding world .Benefiting from a wide sales network in Iran and some countries is proof of the quality and strength of Rivan ceramics .Quality, beauty and customer orientation are the most important principles of this brand, which all our colleagues in this collection have adhered to and have always tried to achieve customer satisfaction. From the stage of design to production, packaging and finally presenting the goods to customers, Rivan is committed to use all its efforts to achieve its goals .Our mission in Rivan is to increase the variety and quality of products, honoring customers and respecting their taste. May we always watch their satisfied smiles

Company

Rivan's mission and vision

Joy and peace are possible in connection with nature, Rivan's mission is to realize this connection, therefore all products and services of Rivan are aesthetically pleasing and inspired by nature. With Rivan, dreams come true. Rivan Group's products and services fit together like puzzle pieces to create a structure that reflects the needs of customers. To manufacture all products and services, Rivan Group has used advanced equipment and the highest quality materials.

Introducing Rivan as the leading brand in the region in the production of ceramic slabs is the vision of our group. Production and design of ceramic tiles in all dimensions with exemplary beauty and durability and presenting it in the best way in domestic and foreign markets is one of the basic goals of Rivan Group. With commitment to quality, creativity and sustainability, Rivan s aims to be the most reliable and privileged choice of customers, architects and designers who are looking for a new experience with quality and a different lifestyle.

5 FINISH

3D·Fit®

Technology

Our collections with 3D-Fit® textures use an innovative 3D digital graphic printing technique. This process allows the image and textures of the ceramic to work seamlessly together, so that, together with the core designed using this technology, it creates a much more realistic looking surface and gives each piece a unique and special character.
With materials like wood or stone, this effect could only be achieved if the texture and graphics were intrinsically linked. Now, as a result of our RDI, 3D-Fit® can be applied to a selection of our Series. The highest level of definition to make each surface appear much more realistic.

Matt

Matte finished is covered in a non-shiny glaze that is applied with an ink jet machine or in a waterfall stream glazing method. This process yields tiles with a flat finish that do not reflect light and offer a contemporary look.

Glossy Polished

With a high-gloss, perfectly smooth finish, the polished surface exhibits a full range of tones. A gloss that does not scratch the surface of the tile, does not fade or show signs of wear

LAPPATO

Lappato finished is basically a shiny texture that is added to the surface of the tile to give it a semi gloss appearance.
Depending on the viewing angle, the light dances on the surfaces or disappears on the matt textures

CARVING GLOSSY

This design is produced with glossy carving effect.The Carving collection restores the original beauty of a noble stone, with a new appearance given thanks to a careful design that offers a faithful reproduction of the surface, the nuances and the material aspect. A versatile range of formats and ûnishes, together with excellent technical performance, are the signature features of a supremely beautiful, functional ceramic product. Imlis restores visual continuity between indoor and outdoor spaces, and is just waiting to be discovered in six discreet, natural nuances.
